SmartSense SmartHub.

The central unit of the SmartSense security system requires the CAVIUS App and internet.

1. Connect the SmartHub to included power supply and your router, see fig. 1. Upon successful connection, the green LED will be constantly lit.
2. Download the free CAVIUS App see fig.2.
More info can be found on www.onpointdistribution.co.nz
3. Follow instructions in the App
4. When asked, find ID and PIN on the backside of the SmartHub
5. Use the App to test the installation

CAUTION!

Do not submerge the device in liquid or attempt to clean it with liquids or solvents. To clean the device, disconnect from the power outlet. The device should only be used indoors. Keep the device away from water, fire, humidity or hot environments. Do not attempt to disassemble, repair, or modify the device. Never use the product if it is defective. Continuing to use a defective product can cause serious injury.
