# WATCHMAN

WIRELESS

# **RELAY** SWITCH

MODEL NUMBER:

## AJ-K102

The Watchman Relay Switch is a low voltage, innovative solution that allows you to integrate Watchman smoke and heat alarms into any existing home security system or isolate power on a particular circuit.

With its advanced technology, the receiver provides a comprehensive and seamless solution for monitoring smoke and fire risks in your home.

The Relay Switch can connect multiple smoke and heat alarms using just one relay switch; this allows for easy connection of all the alarms in the network to the existing home security alarm panel, eliminating the need for multiple receivers.

**10 YEAR** PRODUCT WARRANTY

SIMPLE AUTOMATED INTERCONNECTING

ALL PACKAGING IS 100% RECYCLABLE

### PRODUCT & TECHNICAL SPECIFICATIONS:

| | |
|---|---|
| Product Size: | 55 x 40 x 20mm |
| Weight: | 18.7g |
| Working Voltage: | DC 6-36V |
| Channels: | 1 |
| Standby Current: | < 1 mA |
| Alarm Current: | < 40 mA |
| Receiver Sensitivity: | 13dBm |
| Wireless Frequency: | 433 MHz |
| Output Mode: | Switching Signal (Dry Contact) |
| Working Mode: | Momentary / Toggle / Latching |
| Max Load of Relay Contact: | 7A |

### FEATURES:

» RF technology and connects with all Watchman wireless models.

» Low Voltage

» Only require one Relay Switch/interface to connect all alarms in a network

» Interconnectable with up to 21 alarms
